A Publication for Alumni and Friends of Broome Community College

FALL 1992

BCC Open House 1992

October 3, 1992

Come visit your "Alma Mater" and enjoy some of the wonderful activities planned for Open House 1992. All alumni, friends and their families are welcome to this event which features:

BCC Jazz Band Performance

BCC Choir Performance

\$600 Tuition Raffle

Student Art Exhibit

Basketball Scrimmages and
3-Point Shot Competition

Healthworks Fair

International Students Fair
Culture of 40 countries!

Student Activities Fair

Guided Tours of Campus

Free Drinking Water Testing

Bring a pint from home

X-rays of Common Objects

Digitized Photos

Free Community Education

"Managing Your Time Wisely"

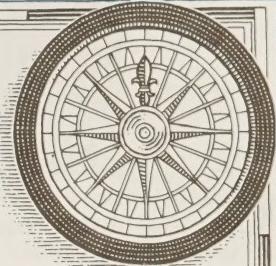

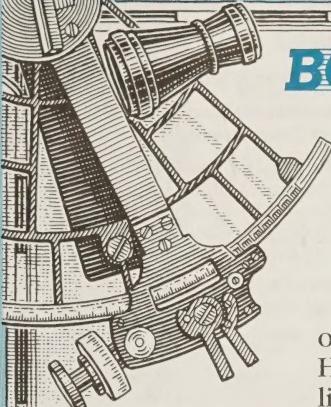

"Homemade Candy & Treats"

"You, Too, Can Teach"

*"Alms House Tour/History of
the Broome County Poor Farm"*

Career Conversations, Presentations,
Balloon Launch, College Bowl
and MUCH, MUCH MORE!

**FOR DETAILS AND
A SCHEDULE
OF THE
DAY'S ACTIVITIES,
CALL 778-5199**

From the Director

On August 10, 1992 I came to BCC to serve as Director of Alumni Affairs. Former Director Michelle King has relocated to Rochester, NY and sends her best wishes to her many alumni friends from BCC.

It has been exciting to be on campus this Fall. BCC's Theme this year is based on the quincentennial anniversary of Columbus' journey to America. Students are being challenged to discover the strength, determination and courage within themselves to meet the opportunities presented by a college education.

At orientation, BCC President Dr. Donald Dellow told students that at one time students coming to college may have been told *"Look to the person on your left and to the one on your right. Next year, one of those two people will not likely be here."* Dr. Dellow then stated, *"But instead I say to you...Look to your left and look to your right. Think about how wonderful it will be as all of you walk down the aisle together at your graduation from BCC!"*

It is this positive enthusiasm and affirmation that has made my first month at BCC so inspiring. The highlight of my time here has been hearing the alumni and students tell about how BCC affected their lives.

Many of you have told me about a time in your life when felt you had little to offer. Coming to Broome Community College was a turning point when you began to believe in yourself and your abilities.

I will be compiling many of these "success" stories. To share yours, drop me a line c/o BCC, P.O. Box 1017, Binghamton, NY 13902.

BCC Placement Office Provides Job Search for Alumni

by Larry Truillo, Asst. Director, BCC Placement

Are you in need of advice or other assistance regarding your job hunt? The Placement Office at Broome Community College offers alumni a full range of services—all free of charge! These include:

- ❖ Job Search Seminars
- ❖ Individual counseling on resume writing, interviewing techniques, and job search strategies.
- ❖ Registration and Credential File Service. Register with the Placement Office to receive job vacancy notices related to your area of study. We will also establish a credential file in our office and notify you of on-campus recruiting and job fairs.
- ❖ Free BCC Placement Office publications are available upon request.

FALL SCHEDULE OF EVENTS

"Exploring Job Opportunities in the Nonprofit Sector"
October 7 and 15

"Preparing for the On-Campus Interview"
December 2 and 10

"Nonprofit Career Fair"
November 6

In addition, there will be a Technical Job Fair on January 8, 1993. Temporary service agencies and employment contractors seeking engineering technology and office technology majors and alumni will be on hand to discuss employment opportunities with you.

To receive additional information on the Placement Office, call 778-5205.

Calling On You!

On October 19, 1992 the Alumni Phonathon will begin. Please be ready to offer your support to Broome Community College when a representative calls.
THANK YOU!

Debra A. Morello

Director, Alumni Affairs

New Endowments Will Help Future BCC Students

by Roger Hartman, Director of Planned Giving – BCC Foundation

Many more BCC students will be helped in the future because of three generous endowed gifts received by the BCC Foundation since January of this year. Additions to other funds previously established counted for another increase in total gifts to endowment during the 1991-1992 fiscal year. (*Endowed gifts are invested, with only the income used for the purposes determined by the donors*)*

Following is a description of the three new funds established in the last nine months.

Edgar A. and Ida M. Alekna Scholarship Fund

Mr. and Mrs. Edgar A. Alekna of Endwell, NY decided to share some of their success and good fortune with people who are less fortunate but who are willing to work hard to get ahead. With a major "in-the-six-figures" gift to endowment, the Edgar A. and Ida M. Alekna Scholarship Fund was established. This fund will provide income to assist financially needy students through the BCC Foundation's Grants-In-Aid Program.

At a dinner held in the Alekna's honor, BCC President Dr. Donald A. Dellow said "When you help students in this way, often a second or even third chance for them, it helps the students and it helps society. We thank you for making this possible."

Raymond and Miriam Jarvis Endowment Fund

Raymond D. Jarvis and his wife, Miriam (deceased), devoted most of their adult lives to education. Mr. Jarvis worked in the Education Department of IBM for his entire professional career. Mrs. Jarvis was a teacher in the Binghamton School District.

Though retired from IBM for a number of years, Mr. Jarvis still was able to take advantage of that company's generous matching gift program to establish this endowed fund. Because of the Jarvis' generosity and that of IBM's program, many students will be helped in the years ahead.

Richard H. Parish Memorial Endowment Fund

A former trustee of BCC has been memorialized by his wife and family with the establishment of the Richard H. Parish Memorial Endowment Fund. Dorothy W. Parish made the principal gift to establish the Fund, which was added to by other family members. Mr. Parish served on BCC's Board of Trustees from 1966 to 1974. Remembered by his friend and fellow trustee Darwin R. Wales, a Binghamton attorney and Foundation board director, Mr. Wales said, "Dick was an excellent trustee - he loved the College, had great ideas and understood the finances." Mr. Parish's love of BCC will be reflected in the lives of the many students who will benefit through this important endowed fund established in his memory.

Anyone interested in learning more about the Planned Giving Program and endowed gifts is encouraged to write or call Roger Hartman, Director of Planned Giving, or Mary Dean, Executive Director, BCC Foundation, P.O. Box 1017, Binghamton, NY 13902 (607) 778-5182.

* A minimum of \$5,000 is required to establish an endowed fund, and donors can take up to five years to meet this minimum. In most cases, employer matching gifts can be used to help establish the funds.

BCC Childcare Center Receives National Accreditation

The Learning Curve, BCC's Child Care Center, has become one of the first child care programs in the United States to be accredited by the National Academy of Early Childhood Programs.

The Learning Curve serves children of BCC students, faculty and staff. In addition, when slots are available, the children of alumni are accommodated.

The accreditation awarded by the National Academy illustrates that **The Learning Curve** has met high standards of quality including:

- ❖ providing activities appropriate for children of having well qualified and trained staff
- ❖ maintaining an adequate number of staff for the number of children
- ❖ meeting stringent health and safety standards, and
- ❖ offering opportunities for parental involvement.

Sweeping Changes Will Give Broome a New Look

BCC continues to grow to accommodate new full and part-time students. Four major building projects are planned for completion within the next three years at BCC. These include:

The Decker Health Science Center

The Center is the "crowning jewel" of new buildings for the campus. When complete, it will house seven health science programs at BCC within one central location. These programs include Dental Hygiene, Medical Assisting, Medical Laboratory Technology, Medical Record Technology, Nursing (RN), Physical Therapy Assistant, and Radiologic Technology.

Construction is planned to begin in 1993.

The Campus Services Building/Temporary Classrooms

This building, to be located at the Southwest corner of campus, will be the new home of campus services.

Initially, it will serve as a classroom building while renovations to Titchener Hall are underway. Ultimately, the facility will be transitioned into a campus services center which will include the printshop, mailroom, purchasing, receiving, and maintenance.

New and expanded parking areas will be located in the area of the building.

Titchener Hall

The exterior and lobby areas of Titchener will be completely remodeled. Since over two thirds of all BCC alumni have taken classes at one point or another in Titchener Hall, we are pleased to note that after the newest renovations, the "temperature extremes" and the "noises" of Titchener will be a thing of the past. Future students may not need to "layer" their wardrobes as you once did in anticipation for either freezing or melting in class!

Master Facilities Plan

Negotiations are underway to begin development in Spring of 1993 of a Master Facilities Plan. Results of the planning process will define how the campus of Broome Community College will look by the turn of the century.

Touching Tomorrow

...by Investing Today

by Mary Dean, Executive Director, BCC Foundation

The BCC Foundation's 27th Annual Fund is dedicated to raising funds that will continue to provide need-based scholarships, faculty development assistance and special purpose funds at BCC.

Three special friends of the college will have lead the Corporate, Community Friend, and Faculty/Staff segments of the Annual Fund. These groups contributed \$124,000 to last year's Annual Fund. This year, more than 100 volunteers will work to raise an overall Annual Fund Goal of \$325,000.

George Akel, of Binghamton Giant Markets is chairing the Corporate campaign. George serves as a Trustee of the College and has a deep understanding of the interrelationship of regional economic development and BCC's educational programs.

Peter N. Hankin, Resident Manager and a Vice President of Prudential Securities, chairs the 1992-93 Community Friend Campaign. Peter is a long-term member of the BCC Foundation and campaign volunteer.

Claire Ligeikis-Clayton '76, chairperson of the Nursing Department at BCC, is leading the Faculty/Staff Campaign. Her first-hand knowledge of the way gifts help BCC's students and faculty is why Claire has been a Foundation donor and supporter for many years.

Debra Morello, Director of Alumni Affairs, coordinates the largest segment of the Annual Fund; the Alumni Campaign. Morello says, "Who, but BCC's Alumni know the true value of the BCC experience." Beginning in mid-October, more than 14,000 alumni will be called for their support.

The overall Annual Fund Campaign is coordinated by Mary Dean, Executive Director of the BCC Foundation. Roger Hartman, former executive director, now Director of Planned Giving, continues campaigning for BCC by directing the Leadership Giving portion of the Annual Fund.

40 Years of Vision and Progress at Broome Community College

James J. Corcoran (MT '52) remembers how, through a special program at State Tech, he was able to be prepared to compete with more technically advanced students. After graduation, Jim went on to "Harpur", then to U.V.M. (University of Green Mountains in Vermont) where he graduated Magna Cum Laude with a B.S. in Industrial Engineering in 1974.

In 1952, who ever imagined that American students of the future would be taking courses such as "English as a Second Language", "Human Sexuality", and "Video Theory and Production"?

Today, our students ask "What was a slide rule, Glee Club, a poodle skirt and a sock hop?"

After reviewing this year's 1992/93 General Catalogue, we decided to take a look back forty years to see what was "in fashion" then.

SOME CLASSES AT "STATE TECH" IN 1952

- The Automobile*
- Salesmanship*
- Strength of Materials*
- Typewriting*
- Materia Medica*
- Drawing*
- Shop*

A SAMPLING OF 1992 COURSES

- Ecology: The Everglades*
- Beginning Russian*
- Robotic Applications and Laboratory*
- Business in a Global Environment*
- Computer Graphics with Architectural Applications*
- Multi Cultural Perspectives*
- "Herstory" Women as a Historical Force*
- Digital Electronics and Microprocessors*
- Aerobics, Snorkeling or Cross-Country Skiing*

The basic core courses remain the same yet, as the world continues to evolve, BCC will continue to explore the ways it meets the academic needs of the community. We can only imagine the curriculum list forty years from now in the year 2032!

Charles J. Haltiner (MT '52), now lives in Erie, Pennsylvania. "Carl" remembers BCC well and is looking to get together with some of his former classmates within the next few months to reminisce. Interested in a reunion? Call the BCC alumni office for details.

Alumni On The Move

1950's

Willis G. Clark (MT59), is a senior design engineer, MNG-R small group, with Teledyne Continental of Atlanta, GA. Teledyne is the company that made the engines for Voyager, which flew around the world non-stop in January 1987.

John J. Corcoran (TO54), recently received the IBM President's Award. John is a contract administrator with IBM (STD) in Charlotte, NC. John and his wife, Marjorie, will celebrate 33 years of marriage this year. Their middle son, David is a optometrist practicing in Memphis, while their other two sons are in business in Charlotte.

Milton D. Tomecek (MT56), and his daughter, **Jackie S. Tomecek (BT89)**, were part of the Czechoslovakian Moravian dancers of the Triple Cities, which performed in Prague and other Czech cities during the summer of 1990. Milton recently retired from IBM-Owego.

1960's

Major Eric D. Beach (BT68), was awarded The Bronze Star for meritorious service during Desert Storm, while serving in Saudi Arabia with the 145th Medical Unit (SOM), Army Reserves. Eric is a computer systems analyst with the Red River Army Depot in Texarkana, TX.

Dr. Gary P. Evans (BT63), recently composed the dedication music, a cantata, entitled *O Kingdom*, for the new Grousbeck Music Center at Ferrum College in Virginia. Gary is an associate professor of music with Ferrum College.

Gary B. Finch (BT67), was recently elected vice chair of the Hospice Advisory Board at Lourdes Hospital. Gary is executive director of the Faculty Student Association at BCC.

Thomas J. Jones (PE65), is currently with AAI-Microflite Simulation as director of engineering. Tom's wife, Mary Beth has returned to Broome Community College, where she is enrolled in the medical assisting program.

J. Alan Mark (BT68), is currently employed with Broome County as director of community mental health fiscal services.

Joseph T. Miller (BT64), is presently working with the government of Egypt as a senior organizational development advisor. Previously he served as senior management advisor to the International Atomic Energy Agency in Vienna, Austria. Joseph has had a very interesting academic and international service career.

John F. Peterson, Jr. (ET 68), was promoted recently to vice president of Namiki of America Inc. The parent company, which is located in Tokyo, manufactures coreless DC motors, optical isolators & cables, hi-end watch components, rare earth magnets & precision industrial jewels. John started with Namiki 10 years ago as a sales engineer. John is also active in the Ferrari Club of America as a racer and has won a number of national trophies.

Sue Paciocco Rausch (SC68), was recently promoted to the position of technical standards administrator with Xerox Corporation. Her work involves travels to Europe and South America. Sue's previous position was an executive secretary.

Marshall V. Washburn (BT61), has been named the Internal Revenue Service Compliance 2000 executive. The new position has been created to assure that the IRS moves into full integration of Compliance 2000, a new approach to administration of tax laws. Since 1989 he had served as deputy assistant commissioner for examination in Washington, DC.

Kathie Whalen White (LA69), is in private practice as a psychotherapist. She specializes in helping women recover from childhood sexual abuse. Kathie and her husband, Ken are living in North Hampton, NH.

Robert S. Zemanek, Jr. (BU63), retired last year, as an US Army Public Affairs Officer for the federal government after 27 years of service. He was serving at the Seneca Army Depot, Romulus, NY, the 1983 site of the largest anti-nuclear protests against a U.S. military base. Bob is currently employed by Hazlitt 1852 Vineyards Farm Winery in Hector, NY, where he conducts wine tastings and serves as a retail salesman.

1970's

Theresa Dudek Congdon (MT70), recently graduated from SUNY Empire State College with a BA degree in interdisciplinary studies, with a concentration in adult learning. Theresa is director for adult formation at St. Christopher's Church.

Raymond L. Deyo (LA71), has been appointed division underwriting officer for the Kemper National Insurance Companies' Northeast division, headquartered in Syracuse, NY. Ray has been with Kemper since 1973 and lives in Liverpool, NY, with his wife, Noreen and two sons.

Scott B. Edwards (PE75), has been named senior programmer/manager, STAR Software Development at IBM's federal systems company in Owego. Scott is responsible for all operational software developed on the B-2 program, as well as the support and special test equipment software. He began his career as a programmer, working on navigation algorithms for LAMPS. Recently he received his MBA degree in marketing/finance from SUNY Binghamton.

Maryanne S. Franchak (LA74), graduated cum laude in May 1992 with a clinical nurse specialist masters degree, from SUNY Binghamton. She also received The Excellence in Advanced Nursing Award. Maryanne is on the Broome Community College staff in the health office and faculty in medical assisting.

Alan M. Geller (LA74), recently began a new position in the occupational medicine department of United Medical Associates. He has worked as a registered physician's assistant since graduation from Long Island University in 1976. Alan and his wife, Christine Buchta Geller, have two children.

Marie T. Gonterman (AA77), was winner of Ketchum Directory Advertising's 1991 Golden Link

Award, the highest employee honor in the Louisville division. Along with a commemorative plaque, the award included a \$2,500 check. Marie is an account supervisor and lives in Louisville, KY.

Lorraine D. Hardy (CC76), was recently honored by Gov. Mario M. Cuomo with a certificate of appreciation. She received The Early Childhood Career Recognition Award from New York State for her work with young children. She is a teacher with the Day Care Center of Owego.

Lorraine Gocel Maggio (SC75), was recently elected to the board of directors of NYSE-Star. She is also serving as treasurer. Lorraine is a staff residential program specialist for NYSEG, Kirkwood Industrial Park.

James T. Meadows (CH78), recently accepted the pastorate at North Oak Chapel Assembly of God in Kansas City, MO. He previously served as pastor at the Henrietta Assembly of God. James and his wife, Kathy have three children, Joshua, Nicole and Jessica.

Kathleen Sullivan O'Brien (BT71), market sales manager for Allstate Insurance Companies, has been honored with the Allstate Key Manager Award for outstanding sales performance. Kathleen joined Allstate in 1978 and lives in Fairport, NY.

John J. Packer (ET77), a senior avionics engineer for McDonnell Douglas in Long Beach, CA, is presently working on the MD-80/MD-90 flight guidance system. John lives in Huntington Beach, CA.

Carl E. Shaver (CJ72), retired in July of 1992 after 31 years of service with New York State Police. Carl was captain with the bureau of criminal investigation, Troop "C", in Sidney, NY.

David P. Shelton (PE72), professor and extension agricultural engineer, Northeast Research and Extension Center, University of Nebraska, Concord, is the 1991 recipient of the Nolan Mitchell Young Extension Worker Award, presented by the American Society of Agricultural Engineers. David presently serves as the Reducing Soil Erosion team leader for the University of Nebraska Cooperative Extension Conserving and Managing Natural Resources Priority Institute. His joint research and extension appointment allows him to immediately incorporate research results into educational programs. David also recently presented two papers at the Eleventh International Congress on Agricultural Engineering in Dublin, Ireland.

Gerardo Tagliaferri (LA75), was recently appointed junior high school principal in the Susquehanna Valley School District. He previously served as assistant principal.

Michael R. Tesla (MT70), has been appointed to the new position of manager - alternative fuels development, in the corporate generation department at NYSEG. Previously, Mike was supervisor of operations at NYSEG's Jennison Generating Plant.

Paul Tomanek, Sr. (LA77), was recently promoted to sergeant with the Clifton, NJ police department. Paul also received his third Honorable Service Medal and his 7th Excellent Police Duty Award of his 12 year career.

1980's

Deborah Galazyn Bunker (CS84), and her husband, Dave are the proud parents of Eric David, born April 20, 1992. "Debbie" is a Chapter I math teacher with Susquehanna Valley Junior High School.

JoAnn Chiaramonte-Barnard (SCEX82), was recently promoted to administrative systems center manager at IBM Owego. JoAnn started her IBM career as a secretary.

Vera M. Davis (RN88), is a charge nurse, ICU/CU at Robert Packer Hospital. Vera is also continuing her education in nursing at Syracuse University.

Michelle MacMyne Day (RN86), received her certification as medical-surgical nurse from ANCC. She and husband James are the proud parents of George Edward born on April 17, 1992. Michelle is a clinical III RN at Hartford Hospital in CT.

David M. Egan (AS88), recently was promoted to level II nuclear engineer at G.P.U. Nuclear Power Plant in New Jersey. He was also honored with The Outstanding Performance Award.

Patricia A. Grassi (LA88), recently received her BS degree from SUNY Binghamton. Her current position is office manager with Felix Roma Bakery.

Lisa Anna Hofstead (BUBA88), received her BA degree from LeMoyne College in 1991. She is now expanding her banner and sign company, Airborne Concepts Ltd. in the Central New York area.

Andrea Holzer-Woughter (CH83), graduated with a BS degree in chemistry from University of Washington, Seattle, WA. Andrea recently moved to Colorado.

James Huntziker (LA81), is free-lancing as a television director of photography in the Los Angles area. Jim has worked on many different programs. He lives in Playa Del Ray, CA.

Barbara A. Hutnyan (BA81), is currently volunteering for the organization New York Cares. Projects have included feeding the homeless, Special Olympics and delivering meals to homebound seniors. Barbara is a relocation analyst for Morgan Stanley & Co., Inc.

Nancy M. Juriga (LA89), was recently featured in the SUNY Binghamton newspaper, *Inside*. Nancy graduated from the School of Education and Human Development with a 3.904 grade point average. Her academic advisor observed, "Nancy has a great humanitarian outlook. She has really accomplished extraordinary achievements." She enrolled in college after working for 20 years as a secretary and plans to pursue a master's in social work.

Jennifer J. McElligott (RN87), received her master of arts degree in social science from SUNY Binghamton in January 1992. Jennifer has the position of a CCRN at Lourdes Hospital and is also working on her requirements for certified alcoholism counselor.

Roberta L. Musser (AA89), has accepted a position as production supervisor with Wyeth-Ayerst Laboratories Pharmaceutical in Rouses Point, NY. She recently graduated from SUNY-Cortland.

Barbara Stephens Paufve (CS84) and **Richard E. Paufve (CS84)** are celebrating the birth of their son, Matthew Richard, born March 21, 1992. Barbara is manager of creative design with Inter-Ad, Inc. and Richard is manager of industrial design with Factura Composites, Inc. They live in Rochester, NY.

James A. Sacco (LA86), received his JD degree from the University of Buffalo in 1991. He is an attorney with Remy R. Perot law office, practicing criminal law.

Jackie S. Tomecek (BU89), is an accountant with Richard Eisner Inc. on Madison Avenue in NYC. Jackie graduated from SUNY Albany, in May 1991 with a BS in accounting.

Arlene Trowbridge (MR80), received her BS degree from SUNY Binghamton with high honors in 1989 and received her MS in healthcare from University of Scranton in 1991. Arlene has the position as director of medical records with Mercy Hospitals in Wilkes Barre and Nanticoke, PA, and is also a consultant for Mercy Health Care Center, a long term care facility.

Dawn M. White-Heath (BC83), passed her CPA exam in 1991. She was promoted to state tax auditor for the Virginia Department of Taxation. Dawn lives in Ashland, VA.

1990's

Tina L. Knapp (AA91), is currently working towards her degree in economics/mathematics at Rutgers University. Tina is engaged to BCC alum, David M. Egan (AS88).

Amy M. Skinner (BU90), is a customer service representative for Marine Midland Bank. She is also continuing her education as a senior at SUNY Binghamton.

1992-1993 Alumni Association Board of Directors

W. James Abbott (CS '87)
Steven Amell (LA '72)
Nancy Bettencourt (LA '70)
Gary B. Finch (BT '67)
Carol Foody (BT '66)
Andrea Fynboe (BT '72)
Roy Fynboe (BT '66)

Joseph G. Germick (ET '57)
Mary C. Ligouri (RN '72)
Linda Mapes (BUMA '86)
Patricia A. Seketa (CT '77)
Gilbert J. Senger (BA '74)
Marcia Steinbrecher (BM '84)
Robert C. Watts (BT '66)
Mary Jayne Westbrook (MO '50)

The Alumni Association will be meeting soon to plan the Annual Dinner and Dance. This year the dance will be held on March 27, 1993. If you live outside the one hour radius of BCC and would like Dinner and Dance information, let us know and we'll be in touch!

What's New?

We would like to include your personal and professional achievements in our next BCC NEWS. News will be published as space permits, usually within two issues of receipt. Send all alumni news to BCC Alumni Affairs Office,

P.O. Box 1017, Binghamton, NY 13902.

In Memoriam

J. Robert Garbade, a 1960 Civil Engineering Technology graduate of BCC, passed away on July 15, 1992. Mr. Garbade was President of the Garbade Construction Corporation, which recently completed construction on the Binghamton Municipal Stadium. In addition to his business interests, Bob Garbade also cared about our community and the College. He was a member of the BCC Foundation Board of Directors and helped the annual fundraising.

The Garbade Family requested that gifts in memory of Mr. Garbade be made to the BCC Foundation. These gifts will be used to establish an endowed scholarship fund for future students in Civil Engineering Technology. As the BCC News goes to press, more than \$9,000 has been donated in Mr. Garbade's memory. Donations may still be made by sending the gift to the BCC Foundation, P.O. Box 1017, Binghamton, NY 13902.
